Reference for Tim Finucane

To whom it may concern

Axelsons Institute is Scandinavia's largest and oldest school of alternative and complementary medicine. Founded in 1962, Axelsons Institute offers today a wide range of courses in Stockholm, Malmö, Gothenburg, Copenhagen, Oslo, Helsinki, Osaka and Tokyo.

In 1994 Tim Finucane offered a demonstration of a new approach to teaching ergonomics, physical balance, and posture. After surprising us with immediate, measurable results, we invited him to start teaching on our Massage Therapist training program, our feeling being that Tim's involvement would help us maintain our leading position as a school. Since 2000 Tim has also taught stress management and relaxation techniques on our Corporate Health Consultant training program.

We have been more than satisfied with Tim's performance as a teacher and course developer. He has shown great consistency as regards enthusiasm, energy, responsibility and initiative for his subject and the school in general. He has also demonstrated a well above average ability in leading classes, lecturing and coaching individual students.

Thus it is with great pleasure that we recommend Tim Finucane's services as a teacher, developer or consultant.

Sincerely,

A handwritten signature in black ink, appearing to read 'Hans Axelson', written in a cursive style.

Hans Axelson
Principal
